World language learning is critical for your child. Children who have studied a second language in a sequential, well-organized program exhibit cognitive advantages:

- They do significantly better at tasks requiring divergent thinking, problem solving, and figural creativity (Landry, 1974);
- They score higher on standardized tests in language arts, reading, and math than students not enrolled in foreign language programs (Rafferty, 1986; Garfinkel and Tabor, 1991);
- They have improved self-concept, sense of achievement (Masciantonio, 1977).

Art, music, games and fun - Students learn academic and social language skills through games, music, art, drama and spontaneous conversation. The focus is on development of oral proficiency.

Small Classes sizes - Class size is capped at 12 students, and requires a minimum of 8, students per class - you will be notified by email of schedule changes due to class sizes. If you do not have internet access, please call Barbara Ford at 708-4633.
